PATENT PENDING – MADE IN CANADA

The Camper's Loo is an
ALL CANADIAN MADE PRODUCT
invented as an emergency toilet.

It can be used indoors or
outdoors and only weighs
approximately 4 pounds. It can
withstand up to 250 pounds. It is
made of ABS plastic.

Contents

- Loo (emergency toilet)
- Carrying case with waterproof material
- Retainer ring to hold waste bags
- 4 biodegradable waste bags

Waterproof material
carrying case

Loo, Retaining Ring, Four
Biodegradable Bags

Unfold the seat (may be used this
way on existing toilets).

Extend the legs
and lock into place.

Secure the seat by engaging the
safety seat lock on both sides.

Place the bag over
the retaining ring.

Place the ring and bag
into the seat.
